

HEIZALEE CORPORAL IBIAZ

COMPUTER ENGINEER

Noveleta, Cavite, 4105

✉ heizalee.ibiaz@gmail.com | ☎ +639099264747 | [in](#) heizaleeibiaz

SUMMARY

A Computer engineering graduate with a solid foundation in software and hardware development. Self-disciplined, quick to learn, and experienced through internship training. A critical thinker and team player, ready to contribute to innovative projects and support organizational goals.

EDUCATION

Bachelor of Science in Computer Engineering

August 2021 - June 2025

San Sebastian College - Recoletos de Cavite

- Cum Laude
- Academic Excellence Awardee
- Dean's Lister (2022-2025)
- Best Research Study - Research Colloquium 2025
- CHED Merit Scholarship Program (CMSP) Scholar (2021-2025)

ORGANIZATIONS

Computer Group of AcTive Engineering Students (CGATES)

2021 - 2025

- Assistant Treasurer (2022 - 2023)
- Secretary (2023 - 2024)
- Auditor (2024 - 2025)

Institute of Computer Engineers of the Philippines (ICpEP)

2024 - 2025

- member

EXPERIENCE

Quality Assurance Intern

February 2025 - March 2025

Philippine - International Manufacturing and Engineering Services (P. IMES) Corp.

- Conducted quality assurance inspections of electrical components and machine parts.
- Received one-week training each in PLC programming and SolidWorks for basic automation and 3D design.

PROJECTS

Automatic Cut Flower Preservation Machine

July 2024 - November 2024

- Designed and developed a thesis project which preserved different cut flowers automatically.

GORA! A Travel Guide and Planning Application

November 2024

- Created a mobile application to guide travelers with their travel plans.

EngiNuity

November 2024

- Built an educational mobile application with lectures, quizzes, and games.

Temperature Indicator PCB

April 2024

- Designed A PCB for temperature indicator with led lights and buzzer.

Audio-Visual Equipment Management System (AVEMS)

September 2023 - December 2023

- Created a management system for tracking and organizing audio-visual equipment in the library.

SKILLS

Programming Languages: C++, Java, Javascript, Python

Basic Web Development: HTML, CSS, MySQL

Software: Visual Studio Code, Arduino IDE, Pycharm, Eclipse, MIT App Inventor, SolidWorks, MS Office

Hardware: Arduino, PCB Fabrication, Cable wiring (e.g., Cat5, rj45), Electrical wiring and management, Soldering, Crimping, Quality Assurance, System Unit Assembly and Disassembly

Soft Skills: Problem-solver, Detail-oriented, fast learner, Communication skills, Adaptable, Diligent
